

Faculty of Higher Education

Subject Code	FDS759
Subject Name	Food Policy and Governance
Credit points	6
Study Level	Year 3
Delivery mode	On campus
Location	Melbourne
Prerequisites	FDS559 Understanding Food Systems 1

Subject Coordinator
Lilly Cleary
LillyC@angliss.edu.au

Subject Overview	<p>Food Policy and Governance introduces students to the complex spaces of food governance. The subject focuses on the emergence of (new and old, public and private) food standards, guidelines and codes of practice at various scales, from quality standards such as PDO (Protected Designation of Origin) and PGI (Protected Geographical Indication) through Codex Alimentarius and GlobalGap to FSANZ (Food Safety Australia and New Zealand). Drawing on concepts of quality, globalised economy, neoliberalisation and audit culture, students consider the implications of these diverse governance and their intersections with each other and with state legislation and/or agreements (e.g. free trade agreements). Potential new sites of “hybrid” governance between stakeholders at the local level are also explored. This analysis provides a framework for students to contextualise and critique existing food policy documents relevant to a particular setting (e.g. local government) and to reflect on how they might positively contribute to more nuanced and locally responsive practices of food governance.</p>
-------------------------	--

Learning Outcomes	Examine the principal areas of domestic and international nutrition, food and agricultural policy and the cultural, political, economic and health issues related to those policy areas
	Articulate how the term ‘governance’ has different meanings and functions for different stakeholders in the food system.
	Critically analyse the implications of discourses of quality, neoliberalism and accountability for governance processes
	Coherently present the logic and trajectory of governance mechanisms
	Develop and communicate a policy position to a lay audience
	Investigate the relationships between governance policies at multiple scales of government

Assessments	Details	Weighting
	Essay	45%
	Presentation	35%
	Policy brief	20%

Graduate Attributes addressed in this subject	Preparedness
	Systematic and coherent body of knowledge
